MOC 2017: a big show made-in-Italy

Our mission is to promote orienteering, our challenge is to organize in special venues!

This XIII edition of MOC was extraordinary, discovering landscape, cultural and artistic beauties in the Regions Lazio (Rome), Puglia (Gargano), Calabria (Savelli) and Campania (Capri, Sorrento, Amalfi, Ischia, Paestum, Agropoli, Reggia di Caserta, Pompeii, Vesuvio). Spectacular venues which will last forever in the memories of the participants. To organize the first orienteering race in Savelli, the birth town of Nick Manfredi, was a big emotion and a authentic organizing adventure, matched by the large enthusiasm of the population and the institutions. The responsibility of managing the first worldwide IOF test for the new sprint format during MOC Camp in Gargano.

Three things in particular I keep within me: the image of the athletes running in and through the history in Paestum, with the athletic gestures shifted of 2500 years; the race arena in front of the Diana and Atteone fountain at the Reggia di Caserta; the dance of the Swedish national team, prepared to celebrate Nick Manfredi;

A brief summary of the emotions lived during MOC 2017 will follow in the next pages. Thanks to everyone for being present with us.

Arrivederci at MOC 2018

MOC - MEDITERRANEAN ORIENTEERING CHAMPIONSHIP

MOC CHAMPIONSHIP

A championship with final results based on 3 races of very high technical level and wide media coverage.

Moc tour is a circuit of orienteering races reserved to master orienteers of Scandinavia, organized in cooperation with PWT travel, normally the week before MOC Championship.

A training camp reserved for the elite/juniors teams of Scandinavia and Europe, organized in the week before MOC Championship.

PRESS RELEASE

WOC 2020 new sprint format: Successful tests in Italy

Posted on | March 17, 2017 | Category: News

Two different knock-out sprints were successfully tested during the MOC camp in Italy last week; one with mass start (NORT-style) and one with chasing start based on qualification results.

– We had some good tests in Gargano in cooperation with PWT Italy, with strong, relevant starting fields and fierce competition, says Áron Less, IOF Foot Orienteering Commission chair.

The NORT-style with a time-trial qualification heat followed by semi-final and final with mass start and forked legs was one of the tested formats. The chasing start was the second format; a time-trial qualification followed by semi-finals with chasing start based on the qualification race and then followed by a final also with chasing start based on the semi-finals. The chasing start knock-out sprint was tested with non-forked legs.

Awesome day racing here in Italy. Really happy with my run in the semi final finishing 1st in front of Kris Jones and Daniel Hubmann. The final was even more exciting, held in a really technical part of the city. A great experience to run together with these guys and after a close battle I finished 2nd to Lucas Basset. Thanks Øystein for the snap of the final start!

Already missing running around these incredible towns. Heres some onboard action from Emil Wingstedt of the PWT Park World Tour Italy Orienteering.it Chasing Start Final in Vico del Gargano.
